Discussion:

- Henry presented the 2006 - 2010 AIF analysis comprised of funds collected year by year & the allocation of such funds. All of which was used strictly for capital projects as it was & is intended for.
- Based on current & future capital needs, staff was instructed to compile a report establishing an immediate increase to \$8.00 per enplaned & deplaned passenger along with a future increase to \$10.00 per enplaned & deplaned passenger. Increase to \$10.00 will be triggered by a major development event, specifically the Airport Terminal Building redevelopment project, expected in 2012
- Consultation with stakeholders to take place prior to going to Council.
- Report to Council is targeted for the July Council meeting.
